PROFILE

Graduate in biology and chemistry bachelor's degree, and after studying bioinformatics for the master's degree, I have discovered bioinformatics tools to accelerate the research. By my volunteering, I have acquired competences in project and people leading through an event preparation.

SKILLS

Computer skills

Tools and software

Native

Intermediate

Notion

HOBBIES

- Marathon, Running, triathlon M
- Music (Piano, Sing)
- Travel : Italy, USA

EDUCATION

Bioinformatician **Nantes University (2017-2023)**

Master in Bioinformatics (2021-2023) - ongoing

- Structural Bioinformatics, Project Management

Bachelor 3 in Biological Chemistry (2020-2021)

- Chemistry component synthesis (practical work)

Bachelor in Biology and animal physiology (2017-2020)

- Animal testing, homeostasis, cellular biology

INTERNSHIP

Intern in master 2 - ongoing **ICOA, Orléans - 6 month**

- Amino acid reconstruction, molecular dynamics, python, Modeller

Internship in master 1 **US2B, Nantes 4 month**

- Structural Bioinformatics, docking
- Deep learning, Django, web developpment

WORK EXPERIENCE

Production operator **Nutréa, France 2 month**

Factory worker **Maitre coq, France 5 month**

IMPLICATION

Student Association's Treasurer **SciNaPSE, (2021-2022)**

- Association's teacher, team managing, project coordination

Student elected in Nantes University council **CFVU, (2019-2021)**

Singer, pianist, musical coordinator **Imagine, (2015-2017)**
musical theater
